

ASIATIC QUARREL GROWS SERIOUS; VICEROY RESIGNS

China Willing to Release
Steamer if She Re-
tains Cargo of
Arms.

TOKYO, March 5.—The viceroy of Canton, China, says a cablegram received here this morning, has resigned because of the troubles growing out of the holding of the Japanese steamer, Tatsu Maru, which was seized by a Chinese cruiser on the ground that it was carrying contraband of war to Chinese rebels.

This is taken to indicate that the dispute between China and Japan has reached a most serious stage. China is determined not to accede to the demands of Japan, but is willing to release the steamer and maintain possession of the consignment of munitions of war which was seized.

Nippon Unbending.

Japan wants all or nothing and has so stated her position. Tokyo newspapers are urging that the Japanese government hold to this position and not suffer any loss of dignity by compromise.

The Viceroy of Kwang Tung refuses to give up the ship or anything else, notwithstanding instructions from Peking.

It is said that valuable witnesses have been found to sustain the contention of Chinese officials that the arms seized with the Tatsu Maru were part of a filibustering movement and that the rifles were intended for rebels.

Under no circumstances, it is stated, will China stand for interference in her domains by Japan. The encroachments of Japan upon Chinese rights have stirred the government deeply and the fact that a movement was in progress to arm rebels, whether it began with private parties or not, will not be overlooked.

China Must Yield or Fight.

While Minister Hayashi has made no threats of force, it is admitted that there can be only one outcome of a refusal to accede to Japan's demands.

Public opinion has been aroused in Japan over the affair and there is plenty of war talk over the affair.

It is said that Minister Hayashi, acting under instructions, has sent the first secretary to the minister of foreign affairs to Peking with the statement, that in view of the attitude of the Chinese government, Japan could proceed only in a manner that would uphold the dignity and protect her interests. No answer has been made by China.

Wife of Missing Glen Echo Man May Never Recover From Blow

MRS. VAN D. CANADA,

Who Is in a Serious Condition Following the Disappearance of Her Husband.

Distracted by fears as to her husband's fate, Mrs. Van D. Canada, the wife of the Glen Echo merchant who disappeared last Sunday, has been removed to the Red Cross Home at Glen Echo. Today she is in a critical condition.

Since her husband's disappearance last Sunday his wife has been almost insane with terror and grief. Suffering as she was from a chronic nervous trouble, each hour of waiting added to her agony, until now grave doubts are expressed as to her restoration to health. In the hope of finding some trace of

Canada, should he be dead, Dr. Anthony Ray, who has been attending the wife, has proposed a reward of \$50 for the finding of the body.

So far all efforts to find Canada have been futile. Not even a clue on which the searching parties could work has been found.

Starting from the spot where he was last seen, the Virginia side of Chain Bridge, a party of fifteen men, headed by Sheriff Embrey, of Montgomery county, made a thorough search of the woods. Every hollow and clump of bushes, every knoll, and even the small streams were examined, but so far not

OLD CLERKS SAFE, CULLOM DECLARES

Senate Will Eliminate the
Clause Put in by
the House.

The superannuation clause of the legislative, executive, and judicial bill, which was put in by the House, and which would practically shut out of Government employment many of the old clerks, and other employees, will not be permitted to stand by the Senate.

This at least is strongly indicated by a statement made today by Senator Cullom, who is head of the subcommittee of the Senate Appropriations Committee in charge of the bill.

"I do not think Congress is going to kill off these old employees who have been serving their country faithfully for years," said Senator Cullom. "It will not be done so far as I am concerned, and I am quite sure this is the sentiment of the Appropriations Committee. The matter has not been passed upon finally, but I am quite sure no injustice will be done to the aged employees."

PATRICK HOGAN FUNERAL TO BE HELD TOMORROW

Funeral services for Patrick Hogan, of 529 Prospect Avenue, Georgetown, will be held at Holy Trinity Church tomorrow afternoon at 2 o'clock. Requiem mass will be chanted, and interment is to be made in Holy Road Cemetery.

Mr. Hogan was born in the County Clare, Ireland, seventy-five years ago, but came to America at an early age. For more than twenty-five years he had made his home with his daughter. His death last night was due to old age.

even a vestige of the man's property or apparel has come to light. Opinions differ as to Canada's fate. His family are of the belief that he was waylaid while walking to his sister's home in Virginia, probably by a band of Italians.

His preparations before leaving, however, would seem to disprove this idea. Before leaving he dressed himself in his shabbiest clothes, a thing he seldom did on Sunday, put on an old cap, and started out without speaking to anyone. No reason can be assigned for suicide.

That UNIMPORTANT want ads. didn't get in today's paper—and it's not ordered for tomorrow, either!

FOSTER CANDIDATE FOR PROCTOR'S SEAT

Vermont Governor, Son of
Senator, May Resign to
Enter Race.

Representative David J. Foster of Vermont will enter the field as an active candidate for Senator from Vermont to succeed Senator Proctor.

Until Governor Proctor gives some indication whether he will appoint a successor to his father, the situation in Vermont will remain highly uncertain. Considerable gossip is heard to the effect that the governor will probably not make an appointment, but will leave the selection of a Senator to the Legislature, which meets next October.

Advised No Appointment.

It is said Senator Proctor advised his son when he was sick last summer to allow the Legislature to make the selection. On the other hand, it is well known the Proctors have been ambitious to keep the office of Senator in the family and many New England politicians are skeptical about all talk to the effect Governor Proctor will permit the office to get away from him without a struggle. One suggestion is that he may resign, and go before the Legislature as a candidate, without making any appointment in the meantime.

Foster Ambitious.

Representative Foster is ambitious for the Senate, and it will be a severe disappointment to him if he is not able to attain his ambition. He has been in the House since the beginning of the Fifty-seventh Congress. He is a member of the Committee on Foreign Affairs, of the Committee on Reform in the Civil Service, and chairman of the Committee on Expenditures in the Department of Commerce and Labor.

It is expected pressure will be brought on the governor to appoint either Mr. Foster or former Governor Page. A new name mentioned is that of Maxwell P. Evans, son of the former New York Senator.

SISTER INHERITS ESTATE.

By the terms of the will of Mrs. Lucy J. Moxley, dated May 21, 1906, her entire estate goes to her sister, Mrs. Elizabeth R. King. Upon the death of Mrs. King the estate is to be divided into four equal parts, the money and property going to Mrs. Martha A. Hunt, Josephine A. Jackson, James A. Hoffman, sisters and brothers of Mrs. Moxley, and the children of George H. Hoffman, deceased. Jesse H. Wilson is named as executor.

Whatever the Weather Hahn's Shoes are Best

With the absolute knowledge that it's
"BEST IN AMERICA FOR THE PRICE."

EARTHQUAKE RECORDED; LASTED TWO HOURS

Earthquakes lasting two hours were recorded on the seismograph at the Weather Bureau yesterday morning and Wednesday night. Prof. Marvin, the seismograph expert, says the shocks recorded were very distinct, and he is sure there were most noticeable quiverings of the earth not many thousands of miles from Washington.

The seismograph began to record unrest of the earth at 4 hours 46 minutes, and it continued after noon Wednesday. The quiverings of the needle were noticeable until twelve minutes before midnight. The small motion was continued yesterday morning, becoming somewhat strong between 9 and 10 o'clock, but lasting only a few moments.

LANDIS GIVEN RENOMINATION, RETURNS TO G. P. O. INQUIRY

Representative Charles B. Landis, chairman of the House Committee on Printing, who was renominated yesterday for Congress by acclamation in the Ninth Indiana district, will return to Washington Monday.

The return of Mr. Landis is expected to bring forth important developments in the Government Printing Office situation, as it is thought the President will consult Mr. Landis before making public the result of the recent investigation of the office, which was urged by Mr. Landis.

QUITE AWARE OF THE FACT.

Parson Johnson (to one of his flock)—I presume you know, Rustus, that procrastination ain't de fust of times.

Rustus—Deed I does, Pahnson—an' turkey, too! I procrastinated a little too long on my Thanksgiving build this year an' some smarter-culled gennman dan I am got dere faster—Exchange.

"A Faultless Fit or No Charge"

Our Initial Spring Opening

This is our first opening and upon our entrance into the Washington field we feel confident of our ability to satisfy the most critical dressers. Not only are we sure of making a suit that fits perfectly, wears well, and cut in accordance with the decrees of fashion, but we are sure the price will please equally as much.

Let us prove our claim—
